

# Republican Move Threatens To Upset Cosgrave Government

Public.—The recent assassination of Kevin O'Higgins, vice-president of the Free State Council, and the measures which President Cosgrave's Government adopted in the face of that murder, have had surprising and unforeseen consequences which threaten to upset his Cosgrave Government, and completely revolutionize the political situation in the Irish Free State.

Among the Government's measures was one to compel all candidates at elections to take the oath of allegiance to the British Crown before going to the polls. This measure was expected to split the Sinn Féin, the Republican party, headed by Eamon de Valera, whose members had steadfastly refused to take any such oath. Instead, this Government move caused Sinn Féin to split into a determination to subscribe to the oath.

This decision proved to be a Republican disaster, including de Valera himself, taking the oath and assuming their seats in the Dáil for the first time. The Republicans previously had let it be known that the taking of the oath was an empty formality, no far as they were concerned, as they made it plain that the mental reservation that they subscribed allegiance only to the Irish nation.

The advent of the Republican deputies into the Dáil gives the opposition parties just enough votes to upset the Government. It is stated that the three opposition parties—the Republicans, headed by de Valera, the National League group, whose chief is Captain William Keogh, and the Laborites, who are led by Tom Johnson—have agreed to work together and that the three parties will be arranged between them. It was said, however, that it was not expected any Republican party would take office if no Government was formed.

## Manitoba Crop Report

Wheat Cutting To Begin At The End Of August.

Winnipeg.—The western portion of the province of Manitoba is a good crop country, but the western part, with some satisfactory exceptions, is a back bumper crop country, according to a crop report issued by the provincial Department of Agriculture.

Practically no damage has been done by frost, the report states, and hail damage has been light. Wheat cutting in Manitoba is expected to begin about the end of August. The durum wheat crop predominates in Southern Manitoba this year, little Marquis wheat being sown.

In the Moose Mountain area there is an odd field of wheat and despite the fact that wheat has attacked the wheat there will be a fairly good yield.

## Epidemic In England Is Causing Anxiety

Causes Of Illness Among Children Cannot Be Determined.

Bath, Eng.—An epidemic that is supposed to have resulted largely from the consumption of tainted ice cream, has affected more than 100 people, in Bath, Somerset, and the surrounding district. There is a great deal of anxiety over the outbreak, more particularly as a number of people who have not eaten the suspected infected ice cream, are ill from some mysterious cause.

The majority of these who are ill are children. One child has died from convulsions caused by the unknown irritant.

Toronto Union Station Opened For Traffic.—Toronto's new union station, which for eight years has been a pile of rubble, but unexcused because of difficulties surrounding the exercise of a valid by-law, has been opened to the general public, and the old station, which has served as a terminal for more than 50 years, was thrown into the flames literally and figuratively, and will be replaced by a new station.

B.C. Peash Crop Damaged.—Kelowna.—Warning of an 80 per cent. crop failure in Washington and British Columbia, a peash crop was issued by the manager of a wholesale fruit house, who attributed the condition to frost. It was estimated that from 200 to 300 carloads will be all that the Yukon and Okanagan valleys will produce this year, as against many thousands last year.

## Attempted To Sell Dye Trust Secrets

Permits and Contract Found In Possession Of Three Employees In Germany

Bremer, Germany.—Three employees of the German Dye Trust, are alleged by the police to have been caught in an attempt to sell the manufacturing secrets of certain products to English interests.

The police say they found the formulae hidden in the men's socks. They also claim to have found a contract fixing the purchase price of the secrets at \$200,000 marks (about \$207,000). The alleged contract also provided for the sale of the secrets to the English, and the steady employment, with a share of the profits, of the three men, and the three men were released.

## London To London Airmen Selected

Captain Tully and Lieut. Medical Chosen To Make Flight

London, Ont.—Captain R. B. Tully, for the past several years superintendent of the Ontario Government air service, and Lieut. Medical, with Lieut. James V. Moffatt, of the same service, have been chosen pilots for the London, Ont. to London, England, non-stop flight.

They signed their contracts with Charles Burns, owner of the \$20,000 plane for the flight, and left at once for Detroit to take charge of the flight. The flight is to be made in a monoplane, scheduled to be completed and fully equipped with all necessary instruments and time for delivery in London, August 15.

The pilots hope to be ready for a take-off, if the weather is favorable, within a week or so.

## TWO RADICALS AGAIN GRANTED BRIEF REPRIEVE

State Prison, Charleston, Mass.—Nicholas Sacco, and Bartolomeo Vanzetti, who have been given a new lease on life.

The radicals, condemned to execute their crime of murder committed seven years ago, in the electric chair, have been granted a reprieve to include August 25.

This new reprieve was made by Prison Warden William Hendry, following receipt of formal papers which empowered him to make this action. Many times before these two radicals, whose case has aroused national interest as one of the most remarkable murder cases in the history of jurisprudence, have been within a few hours of death. They were out of the night would come the word that the Supreme Court had granted them a reprieve.

This new reprieve was made by Prison Warden William Hendry, following receipt of formal papers which empowered him to make this action. Many times before these two radicals, whose case has aroused national interest as one of the most remarkable murder cases in the history of jurisprudence, have been within a few hours of death. They were out of the night would come the word that the Supreme Court had granted them a reprieve.

The value which has been shown by the radicals in the past, and the fact that they are now in the hands of the law, has been a great deal of help to the radicals. The radicals, who have been granted a reprieve, are now in the hands of the law.

## TWO PREMIERS MEET

London, Oct.—The Prime Minister, Mr. Lloyd George, and the Premier of the United Kingdom, Mr. Balfour, met today in London.

The two men discussed the situation in the Middle East, and the Premier of the United Kingdom, Mr. Balfour, met today in London. The two men discussed the situation in the Middle East, and the Premier of the United Kingdom, Mr. Balfour, met today in London.

## TRADE OUTLOOK IN CANADA IS VERY FAVORABLE

Calgary.—That the general industrial transportation and agricultural outlook, from reports received here from all parts of Canada, was on the whole excellent and would further improve as the market for Canadian products was opened, was the statement made here by E. W. Hearty, K.C., chairman of the president of the Canadian Pacific Railway.

"An important factor in the latter condition will be a steadily increasing population," he said. "The transportation companies of course, only reflect the general conditions of the country, and compared with last year, their gross earnings are higher but increased costs beyond their control have resulted in lower net earnings. The Canadian transportation companies are not making any compensation for the important public services they are, I think, performing. As to agricultural conditions, a great deal will depend on the weather, which will prevail during the next ten days or two weeks. If the conditions are favorable, another substantial contribution to the country's progress will be made."

"What are your impressions of the present situation of the country's progress will be made?" "The Canadian transportation companies are not making any compensation for the important public services they are, I think, performing. As to agricultural conditions, a great deal will depend on the weather, which will prevail during the next ten days or two weeks. If the conditions are favorable, another substantial contribution to the country's progress will be made."

## SOFT COAL DUST TO SOLVE OUR FUEL PROBLEMS

Montreal.—Predicting fuel independence for Canada inside of seven years through the manufacture of pulverized fuel and oil by-products from soft coal dust, J. A. Bradstreet, local fuel expert, is in Montreal to lay plans for the development of a new industry.

He said that the soft coal or Canadian lignite, and if there is in Canada peat with volatiles rising to above 20 per cent, will be a great help to the country. He said that the soft coal or Canadian lignite, and if there is in Canada peat with volatiles rising to above 20 per cent, will be a great help to the country.

## Settlers Under Group Plan Are Prospering

Progress Made During Summer Says Canada Colonization Official

Winnipeg.—On his return from an inspection tour of the settlements made by the Canada Colonization Association in the West, E. C. Duncan, assistant manager brings an account of good conditions.

Settlements made by the association in the Lethbridge district are so successful that it has been decided to increase them by 25 families this year, and have taken an extra hall insurance to protect their crop, which is the best in the history of that district.

The 14 families who have been placed in the Lethbridge district are so successful that it has been decided to increase them by 25 families this year, and have taken an extra hall insurance to protect their crop, which is the best in the history of that district.

## B.C. Extended Greetings

Acting Premier Sends Message Of Welcome To Premier Baldwin

San Francisco, Cal.—Acting Premier J. M. McLaughlin of the British Columbia Government sent a telegram to Premier Stanley Baldwin, regretting the presence of public business prevented him from going to Seattle to convey the greetings of British Columbia personally to the British Premier.

Winnipeg.—On his return from an inspection tour of the settlements made by the Canada Colonization Association in the West, E. C. Duncan, assistant manager brings an account of good conditions.

The Most  
**Amazing  
Quality**  
in Chevrolet History

QUALITY in design. Quality in construction. Quality in appearance. Quality in performance. Never before has any low-priced car possessed them to such an amazing degree—because no other low-priced car combines the progressiveness of Chevrolet and the diversified experience, the vast resources and the matchless facilities of General Motors.  
Study today's Chevrolet. Mark well the aristocratic beauty of its lines—the superbly executed details of its Fisher-built bodies. Then go for a ride. Revel in the thrilling sport when you "step on the gas". Delight in the smooth operation—the swift sweep of the passing miles. Marvel at the way the car hugs the road, the ease with which it obeys the steering wheel, the promptness with which it responds to the brakes.

Here is quality expressed in terms that millions now can understand and enjoy. Here is quality obtainable at low prices. Here is quality which reflects the savings of tremendous production and which demonstrate the willingness to share these savings with the public. Here is a car of amazing quality... for everybody, everywhere.

Subscription \$2.50 a year, \$2.50 to the United States

Another revolution has been suppressed in Portugal. Life in Portugal is just one darn revolution after another.

A man called Jacob Dibray married his sixth wife at Dover, England, at the age of 106, the bride being 76. Who said marriage was a lark, live as long as single stout.

Last Saturday 4.51 inches of rain fell at Medicine Hat. Enough to make Hatfield, the rainmaker, long for the good old days.

"Peace River fairmen, keep your eyes open! Lindbergh will sure ask you for a bottle of milk when he lands in your town, as he did in Paris."  
—Peace River Record

Beauty hint—Keep a supply of that schoolgirl complexion.

## THE ALBERTAN AND

WHY? POOL.

The Calgary Albertan "apparently has fears of being suspected of having anti-pool inclinations, and frequently accuses its readers that it takes a neutral stand, neither for the wheat pool nor against the pool. The only reason the reading public may have for suspecting the Albertan of being anti-pool is from what is printed in the columns of that paper."

Wheat pool officials have claimed that certain reports of pool meetings which have appeared in the Albertan are inaccurate, "largely untrue and badly twisted." If this is the case it is not fair to the pool.

Apparently the private grain interests have no complaint to make on what the Albertan publishes regarding the grain business. These gentlemen seem to be quite satisfied that nothing they have said or done has appeared in the Albertan in a misleading manner. If anything had been wrong they would not have hesitated in saying so.

When pool officials have many times been offended at what they term misleading statements which have been published in the Albertan, but to complain comes from the private grain trade concerning reports of their side of the question. "This is a poor old fellow. Can it be that the Albertan has been particularly careful not to offend the private grain interests, and somewhat careless concerning what it published about the statements made by wheat pool officials at the meetings they have held in various parts of the province?"

The Calgary Albertan "claims it takes a neutral stand on the wheat pool question, that of a friendly and constructive critic. Does the Calgary morning paper please itself in the position of the stern but kind father who says, "Son, this hurts me more than it hurts you."

## CANADA'S AUTOMOBILE PRODUCTION

OTTAWA—Production of automobiles in Canada during June amounted to 19,209 cars. This was 25 per cent under the 25,708 cars turned out in May, the record month for the industry, and 12 per cent below the output of 21,571 cars brought out in June 1926. The six months' production totalled 128,808 cars at a sales value, f.o.b. plant, of \$89,954,707, a gain of 2 per cent in number and 1 per cent in value as compared with the same half year of 1926, when 124,879 cars were turned out, worth \$75,729,460.

## WORLD MARKET FOR B. C. APPLES

VERNON, B. C.—E. J. Chambers, President and General Manager of the Associated Fruit Growers of British Columbia, states that British Columbia apples are now being sent to South Africa, China, Sweden, Norway, Germany and Denmark, as well as Great Britain, the heaviest market. New York and Chicago are the big consumers of two varieties, the McIntosh Red and Delicious, respectively.

## HOMESTEADERS ACTIVE

WINNIPEG—Immediate entries made for homesteads in the four western provinces in June totalled 808 as compared with 704 in June, 1926. Manitoba showed 86 against 129, Saskatchewan 243 against 227, Alberta 270 against 227, and British Columbia 1 against 11. Filings for the six months to date total 5069 against 2984 for the similar half year of 1926. Of these Manitoba had 585, Saskatchewan 1266, Alberta 1263, and British Columbia 26.

If you can keep your head when all about you  
Are losing theirs and blaming it on you,  
If you can trust yourself when all men doubt you,  
But make allowance for their doubting too;  
If you can wait and not be tired by waiting,  
Or being lied about, don't deal in lies,  
Or being hated, don't give way to hating,  
And yet don't look too good, nor talk too wise;  
If you can dream—and not make dreams your master;  
If you can think—and not make thoughts your aim;  
If you can meet with Triumph and Disaster  
And treat those two imposters just the same;  
If you can bear to hear the truth you've spoken  
Twisted by knaves to make a trap for fools,  
Or watch the things you gave your life to,  
Broken, and then to rebuild 'em up with worn-out tools;  
If you can make one heap of all your winnings  
And risk it on one turn of pitch and toss,  
And lose, and start again at your beginnings;  
And never breathe a word about your loss;  
If you can force your heart and nerve and sinew  
To serve your turn long after they are gone,  
And so hold on when there is nothing in you  
Except the will which says to them, "Hold on!"  
If you can talk with crowds and keep your virtue,  
Or walk with kings—nor lose the common touch,  
If neither too soon your friends you have sought out,  
Nor yet your goals and your dreams turned out;  
If all men count with you, but none too much;  
If you can fill the unforgiving minute  
With six seconds' worth of distance run,  
Yours is the earth and everything that's in it,  
And—what is more—you'll be a Man, my son!

(by Rudyard Kipling)

COMMERCIAL FLYING STARTS IN ALBERTA

The first passenger trip of the Lethbridge Commercial Airways was made on August 7th between High River and Lethbridge by a plane piloted by Jack Palmer. It is announced that commercial flights will be arranged between Lethbridge and "Wharton Lakes."

When pool officials have many times been offended at what they term misleading statements which have been published in the Albertan, but to complain comes from the private grain trade concerning reports of their side of the question.

"This is a poor old fellow. Can it be that the Albertan has been particularly careful not to offend the private grain interests, and somewhat careless concerning what it published about the statements made by wheat pool officials at the meetings they have held in various parts of the province?"

The Calgary Albertan "claims it takes a neutral stand on the wheat pool question, that of a friendly and constructive critic. Does the Calgary morning paper please itself in the position of the stern but kind father who says, "Son, this hurts me more than it hurts you."

When pool officials have many times been offended at what they term misleading statements which have been published in the Albertan, but to complain comes from the private grain trade concerning reports of their side of the question.

"This is a poor old fellow. Can it be that the Albertan has been particularly careful not to offend the private grain interests, and somewhat careless concerning what it published about the statements made by wheat pool officials at the meetings they have held in various parts of the province?"

The Calgary Albertan "claims it takes a neutral stand on the wheat pool question, that of a friendly and constructive critic. Does the Calgary morning paper please itself in the position of the stern but kind father who says, "Son, this hurts me more than it hurts you."

If women could be fair, and not just fond,  
Or that their love were firm, not fickle still,  
I would not marvel that they make men bond  
By service long to purchase their good will;  
But when I see how frail those creatures are,  
I muse that men forget themselves so far.  
—Edward Vaece; A Renunciation

Delegates to the World's Poultry Congress, to the number of 136 will spend two days in Alberta in the course of a trans-Canada tour. After a stop at Wateryright, the party will spend August 17 at Edmonton, later going on to Jasper, and on their return from the coast will visit at Banff and Lake Louise and spend August 26 at Calgary. Included in the party are representatives of some thirty foreign countries, many of who are visiting Canada for the first time.

## The Low-Swing Body with no loss of headroom or road-clearance

THE dream of every automobile manufacturer—to build a body low swinging for beauty and for roadability, without loss of head-room or road-clearance—has become reality in McLaughlin-Buick for 1928.

McLaughlin-Buick engineers achieved this lower effect, not by the makeshift of smaller wheels with their increased tire wear, but by a complete re-designing of bodies, and by an entirely new and exclusive principle, the double-drop frame. The tallest McLaughlin-Buick now stands but 70 inches high, yet McLaughlin bodies are roomier than ever before.

See the low-swing body as McLaughlin-Buick builds it, and you will see at once why McLaughlin-Buick is the industry's accepted leader in beauty, luxury, performance—and especially in value.

### WILL ESTABLISH COMMERCIAL FISH HATCHERY

Construction of the first commercial fish hatchery in Alberta will be started in September, according to R. T. Ridd, Dominion fisheries inspector. This will be located at the mouth of Canyon Creek, two miles west of Wainwright, on the E. D. and B. C. railway, on the south shore of Lesser Slave Lake. It is estimated that 100,000,000 whitefish will be propagated in the hatchery every year to maintain an undiminished supply of fish for the many companies operating at the lake.

### TO SELL LAND FOR TAXES

Under the Tax Recovery Act, sales of land will be held in Strathmore and Lacombe on September 17. Other sales affecting several of the municipal municipalities in the province are being arranged by the Provincial Government, but where possible they will be left over until the first returns from the present crop have been received. It is believed that these sales will greatly reduce the tax arrears in many localities.

### RECORD PRODUCTION FROM ROYALTY WELLS

Royalty No. 4 well in the Turner Valley field, produces more naphtha or natural gasoline than all the other 2,000 producing wells in Canada according to a statement issued in a report on natural gas and petroleum wells, prepared by John McLeish, director of the division of mineral resources, department of mines, Ottawa. With the bringing in of this well in 1924, states this report, Alberta assumed first place among the provinces of the Dominion in the production of oil. Royalty No. 4 yielding an average of 456 barrels per day of high gravity oil in 1925 and more than 600 barrels per day in 1926. Results to date of the report continues, indicate that Turner Valley is one of the world's largest gas fields.

### WOMEN IN CANADA

In the days of confederation, woman's sphere was mainly in the home, says an article in the Canadian Pacific Railway publication, "Agricultural and Industrial Progress in Canada." But now women find a place in practically all trades and professions, besides taking an active part in municipal, provincial and federal affairs. One woman has occupied a seat in the federal house for the past six years.

Thirty years ago the teaching profession was largely in the hands of men, for the most part poorly equipped for their work and sadly underpaid. Now, especially in the public schools, teaching is almost exclusively done by women, there being 49,375 women teachers in Canada as against 11,043 men.

In many cases women have discarded their aprons and donned overalls. There is one woman mining engineer in the Dominion, twenty-one electrical engineers and six civil engineers. So far, no woman blacksmith or veterinary surgeon are recorded, but there are women painters, boiler makers, engine builders, carpenters, etc. The census shows 87 women women barbers and hair dressers, three bootblacks, thirty-four boot and shoe repairers, two garage keepers, and three chauffeurs. Seven earn their living logging and fifty-one are crappers and engaged in fishing, one is a counter-keeper and gravelgrader and another an auctioneer.

### Local News

Miss Betty Johnson went to Calgary Friday for a visit with relatives. What on the "Warrior" farm at Lacombe is cut and in the stocks.

Mrs. Arthur Chapman, of Station, is visiting at the W. Planina home.

H. W. Woodward is now in the employ of R. P. Purcell, at Duchesne.

Mrs. Jas. Simpson visited this week with friends in Medicine Hat.

Mr. and Mrs. Rathbone and Richard visited in Calgary over the week-end.

Mr. and Mrs. Ramey Sr. and Mrs. Ramey Jr. and daughter, of Duchesne, were in Bassano last Saturday.

Mrs. Stajevich and baby are visiting at the home of her parents, Mr. and Mrs. Kemmerling.

Bert, Bob, Wight and family returned to Glendon Wednesday for the summer.

Miss Peggy Ritchie, who is now on her vacation, was in Bassano last week visiting friends.

Mr. and Mrs. N. Scott and children of Calgary, were visiting friends in Bassano last Sunday.

Donald McGregor went to Hamar last Saturday. He has secured employment in that vicinity.

Mr. and Mrs. Alex Culbertson and niece Peggy have been down to Bow Slope for a short visit.

It is expected that Percy Powell will have his rig out churning in the fields this week.

Miss G. Gagnon, of Cluny, is improving slowly after her recent operation.

Mrs. Biles, of Innisfail, is down for a few days visiting at the home of Mr. and Mrs. J. H. Biles.

Mr. and Mrs. R. K. Picken and children returned Sunday after a vacation at Banff.

Miss Mary Beth, of Maple Creek, is taking the place of Miss Ritchie during the latter's absence.

Wm. McLaws and A. G. Bond went to Calgary Friday to hear the address of Premier Baldwin.

A. Cathro, of Calgary, is now in charge of the dry goods department of McKee's Store.

Born, in Mr. and Mrs. Pillard, of Duchesne, a son, on Wednesday August 17th, at the Bassano Hospital.

Mrs. Jack Toran, accompanied by Mr. R. Phillips, motored to Calgary for a few days last week.

Ruth Toran is visiting Virginia Clark at Duck Lake Farm for a few weeks.

H. Cass, manager of Regal Films, Calgary, visited on Wednesday with Mr. and Mrs. J. Toran.

H. W. Ford is in charge of the Iowa office during the absence of Secretary Jas. R. Donaldson.

Fred Holmes has returned home after spending a couple of weeks holidays in Calgary.

Mr. and Mrs. Jas. R. Donaldson and two sons, Jimmie and Robert, left Monday on a two weeks' vacation to Vancouver and Victoria.

George Hopman, of Gem, has his eye cut and threshed, and will start cutting wheat about the end of the week.

R. A. Travis and Geo. Travis, motored to Banff Friday evening, and spent the week-end at the mountain resort.

Mr. and Mrs. L. D. Nesbitt and son Lee stopped off in Bassano Thursday on their way to Brooks. They expect to return to Calgary at the end of the week.

Mr. and Mrs. H. D. Powers and daughter Muriel, motored down from Calgary with Mr. and Mrs. Wm. McLaws when they returned home from a short trip to Calgary and Banff.

J. B. R. Culbertson, of Maple Creek, was in town Wednesday and took out some new harvesting machinery. He expects to start cutting about the end of the week.

O. H. O'Toole, of Majorville, was in Bassano on Monday. He and Mrs. O'Toole have returned from a 2,500 mile trip through Montana.

Mr. O'Toole says there are a lot of wonderful crops down south, both in Montana and southern Alberta, and some of them look good for 40 to 50 bushels to the acre. He does not expect cutting to be general around Majorville for another three weeks.

Benson Powers, of Calgary, is visiting in Bassano with Bruce Bell.

Ray Hays was a visitor to Calgary for a few days this week.

### STILLBORN TO OPERATE SOON

CALGARY—Spillars (Canada Co., Ltd.) will begin operations early next month at their new flour mill here, which will have a capacity of 2,000 barrels a day to start with, according to W. A. Vernon, a director. Machinery brought over from England has been installed in the mill, and Mr. Vernon says the mill will be able to produce the highest class of flour that can be manufactured from the excellent wheats grown in the prairie provinces. In fact, he said, it should produce something quite out of the ordinary.

### THE DOMESTIC ANIMALS ACT

(Municipalities)

NOTICE OF SALE  
Notice is hereby given under Section 48 of the Domestic Animals Act, (municipalities), that the following animals were impounded in the pound kept by the Town of Bassano, Alberta, located in the Town of Bassano, on July 26th, 1927:

One sorrel gelding, star on face, branded on right rib, sold to William Boyce, of Bassano, Alberta.

One dark brown horse, branded on left shoulder sold to J. King, of Bassano, Alta.

One bay gelding, 3 white feet, branded on right shank. Sold to Theo. H. Hunter, of Bassano, Alberta.

The said animals were sold on the 26th day of July, 1927, and may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in the Alberta Gazette upon payment of all fees and costs due to the municipality and the purchaser of the said animals.

For further information apply to be undersigned.

JAS. R. DONALDSON,  
Secretary Treasurer,

L. C. Burns, Hussar, 67p

FOR SALE—Two cook stoves, one at \$15 and one at \$25. Sturth's Furniture Store, Bassano.

### HONEY CROP HEAVY IN SOUTH

Alberta's honey crop this season promises to be in the neighborhood of 300,000, according to reports from the southern part of the province where this industry is steadily gaining in importance. Apiaries at Coaldale have shipped their first carload of honey to Calgary and further shipments will be made to Edmonton. A new extracting plant, the largest in Canada, has been installed at the Reidel headquarters at Coaldale and is operating steadily. Warm weather and a wealth of clover and alfalfa bloom are combining to give the bees the best harvest on record and Alberta is expected for the first time to supply its honey needs from within the province.

### KEEN INTEREST IN GRAIN COMPETITION

Judging in the first annual standard grain competition sponsored by the Calgary Board of Trade will be started by Field Crops Commissioner W. J. Stephen about August 16th. There are 65 entries to be judged, all located within a radius of 30 miles of Calgary, and owing to the large number of entries received from outside that distance, it is possible that the boundaries will be extended next year. Three handsome trophies have been donated for the best fields of wheat, oats and barley, and a number of other substantial prizes are being offered.

### THE MANTONA WHEAT POOL

BRANDON, Manitoba--Total deliveries of wheat to the Mantona pool during the past year were 15,150,000 bushels and 12,740,000 bushels of coarse grains. This compares with a total of 20,261,015 of all grains in 1928. To handle this year's wheat crop the pool will require between 50 and 60 elevators. Twenty-eight agencies were established in 1919 importing countries and the grain was consigned to 50 different ports.

LOOT--White fox terrier dog, black spot on back; black eye and ear; collar; Calgary House. Kindly notify A. McEld, Hussar, Alta. 67-9

### Here and There

When the internal trouble which has been devastating China for the last two years subsides, a tremendous market will open up for Canadian wheat in that country, according to J. E. Scott, representing a large British firm at Hong Kong, on his way back to London to report.

Bounties paid for bobs in New Brunswick, by the Department of Lands and Mines, have so far exceeded the figures for the corresponding period of last year, according to L. A. Gagnon, chief game warden, who states that wild cats are being killed in greater numbers each year.

Ontario buyers of milk cows have about completed the purchase of five carloads of Guernsey cows from Colchester, Cumberland and Pictou counties. The buyers are Anderson Brothers and Messrs. Graham and Calder from the Hamilton districts.

The first auction sale of horses that has taken place in Montreal for some years was opened at the East End Stock Market, March 28. Slabbing was put at 202 horses and it was stated that approximately 200 horses were sold. The demand was mostly for heavy draught horses, Percherons, Clydesdales and the like, for carter and for lumbering purposes, coming chiefly from Alberta and Saskatchewan, and some from the middle west.

Consequent upon an agreement reached at a general conference of Canadian and United States telegraph companies the Canadian Pacific Telegraphs have announced that code words will be accepted at all their offices in future for day and night letters. This departure will affect both Canadian and International business, the companies concerned being: the Postal-Telegraph Company, the Canadian Pacific Telegraphs, the Canadian National Telegraphs and the Western Union Telegraph Company.

The development of a new industry from the propagation of muskrats and other water fur-bearing animals, in land and water areas, leased from the Province of Alberta through agreement with the Dominion Government, was indicated by Hon. George Hoadley, Minister of Agriculture, in committee discussion in the Alberta Legislature. The amendment would give the Government power to regulate and license fur and for hunting and to lease the Dominion water and land areas for the propagation of such animals.

A keen competitor to Betty Wiley, the Nova Scotia world's champion milk and butter producer, has been discovered at Fox River, Cumberland County. Mr. Henry S. Kerr of this place, claims that he owns the champion butter producing cow in her class. This cow is a grade Ayrshire and Durham cow, which has just recently freshened. In one week she produced 322 lbs. of milk, which churned 20 1/2 lbs. of butter, after deducting approximately 12 quarts of milk and the weight of cream for home consumption. This record is creating keen interest.

Following upon his recent announcement to the effect that a Toronto firm of architects would be employed in connection with the erection of the new Canadian Pacific Hotel in that city, E. W. Beatty, Chairman and President of the Canadian Pacific Railway, recently stated that Messrs. Spruett and Rolph had been appointed associates with the firm of Ross and Macdonald, of Montreal, to handle this work. Messrs. Ross and Macdonald have been employed in Canadian Pacific work for some time, the latest of their buildings being the company's new hotel at Regina. It is stated that the new hotel shall be thoroughly representative of the city in which it stands and the appointment of a firm of Toronto architects is made to further this purpose.
